

# Newsletter Templates

(text/txt, html and Word format)

We offer newsletter templates that are text based templates as well as html based. A new package with free word templates has also been added.

Run it and all templates will be installed into the directory of your choice, plus you get links to the templates from the program menu. You can find the free newsletter templates at the bottom half of the page.

**IMPORTANT!** Make sure you also read the information on how to [write your newsletter by clicking here.](#)

Before you begin downloading your free newsletter templates, read about

[Newsletter Formatting Rules and information.](#)

You will of course need subscribers to send your newsletter/ezine to. And the fastest, cheapest and easiest way to get them is a [joint venture](#) with someone already established on internet.

## Download Information for the Newsletter/Ezine Templates package

Use the link below to download an exe file with 8 basic text templates and a description of the content + 4 html templates saved as .html, .txt and with a gif file for preview.

The complete package is approx 425Kb in size and comes as an executable installation file. After installing it can you find direct access to all newsletter/ezine templates, both text and html from your program menu.

[Download the word newsletter template package here.](#)

**HINT!**

Keep all newsletter templates in a special directory.

Choose and open your selected newsletter template from there and save the template with a new name into a work directory first thing after you open it. This prevents the templates to be accidentally overwritten

**newsletter templates**

Work smarter, not harder. Use *newsletter templates* to save time and use the time you saved to be with your family or to improve other aspects of your online businesses.
